Material
Materiál PAD

Weight
Váha 102 g/120cm
3,6oz/120cm

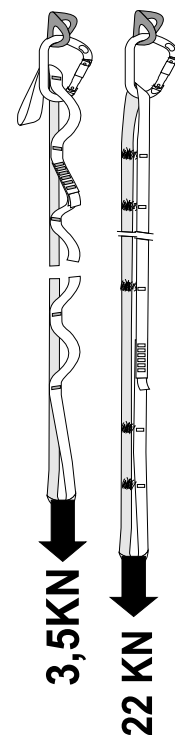

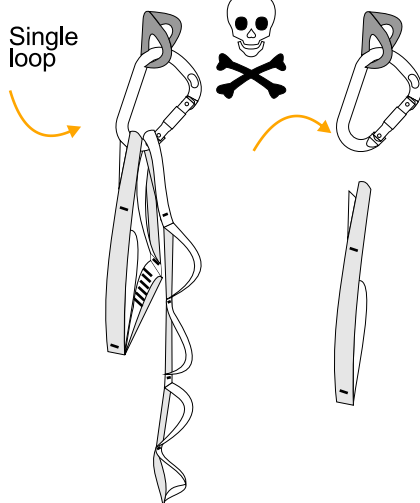

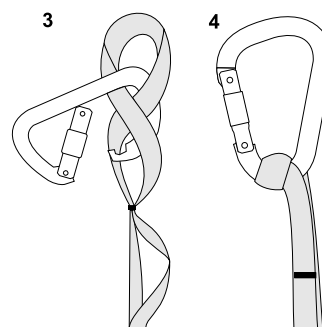

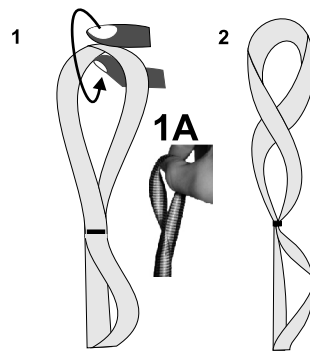

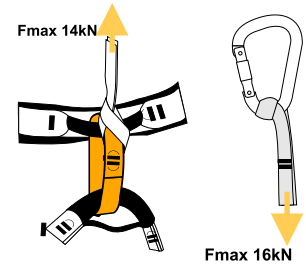

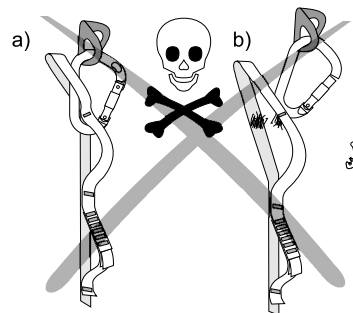

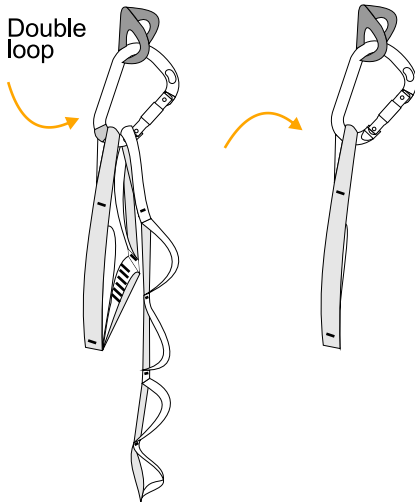

Strength
Pevnosť 22 kN/3,5kN
individual loop

Lenght
Délka 120cm/48in(9 loops)
140cm/56in(11 loops)

Safetychain

- innovated daisy chain with patented double loop at the end provides safe and adjustable attachment of climber to the anchor point
- avoids dangerous use of the traditional daisy chain
- ideal for positioning of descender
- necessity for big wall climbing
- loop for connecting with harness is flipped over for better link
