

Versatile one-buckle harness with a simple construction and comfortable padding, ideal for beginner climbers. A reliable entry-level option for sport climbing, whether outdoors or at the climbing gym.

DESCRIPTION

4mm EVA foam padding is covered on the inside with a porous textile for better sweat wicking, and on the top side with a highly abrasion resistant fabric.

Durable belay loop has a width of 12 mm and a strength of 15 kN.

Reinforced tie-in points for longer life of the harness are a matter of course.

Flexible leg loops with an elastic strap adapt well to the climber's leg.

Rear loop with a load capacity of 10 kg can carry additional equipment or a chalk bag.

Very smooth tightening thanks to the soft and durable webbing.

For quickdraws and other equipment, you have 4 shaped gear loops with a capacity of 5 kg, which have a top braiding with a special treatment for greater durability.

Adjustable and detachable rear stretch straps between the waist belt and leg loops.

KEY FEATURES

- low weight
- comfortable
- long lifetime

STANDARDS

CE 1019
EN 12277, type C

FEATURES

315 g / 11.1 oz
(size. M)

3 YEARS
warranty

MATERIALS

- 50 % PES
- 26 % PAD
- 15 % EVA foam
- 9 % steel

COMPARISON

ROB C5088ML vs. ROB C5075

- 20 g lighter
- stiffer foam provides greater comfort
- shaped gear loops with abrasion resistant braiding
- new Singing Rock double buckle instead of Rock&Lock buckle

ROB C5075

MAINTENANCE

Lifetime of this product depends on the frequency and the environment (salt, sand, moisture, chemicals, etc.) in which is used. Without taking wear or mechanical damage into account and in compliance with the conditions specified in the instructions for use this product may be used 15 years from the date of production and 10 years from the date of the first use. However mechanical damage can occur during the first use, which can limit the lifetime of this products only to its first use.
