

↑ DNA 8.9 DRY

One rope for all your climbing activities. Suitable for sport climbing at the top level and also for mountaineering and glacier tours thanks to its lightness and water resistance.

DESCRIPTION

Extremely lightweight, ideal rope for onsight, flash or redpointing your climbing projects where every small detail matters.

Middle marking.

Great rope for mountaineering, glacier tours or trad climbing.

Thermotransfer end marking and ultrasonic ending.

Rope is soft and easy to manipulate in all belay devices.

UIAA water repellent achieved by nano water repellent treatment.

Pack:
30-80; 100 m

Spool:
200 m

KEY FEATURES

■ certificated as a single, twin and half rope for the widest range of use
