RK206AX00T

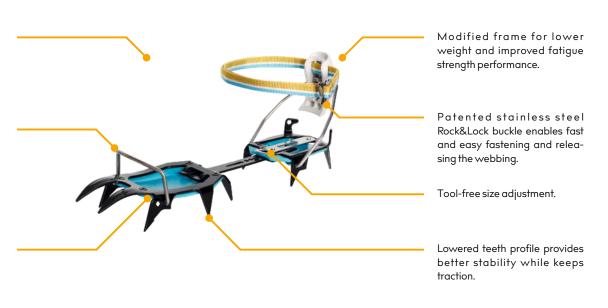

All-round lightweight twelve-point crampons for classic mountaineering. Designed for all terrain from glacier tours to steep snow slopes or classic ice couloirs.

DESCRIPTION

Asymmetrical shape of crampons ideally adapts to the boot and the front points thus providing maximum efficiency in steep terrain.

Fastening system suitable for rigid mountaineering boots with a welt. Front toe bail is possible to swap for the SEMI-CLASSIC toe bail for boots with a groove or welt on the heel and the SKI toe bail for ski touring boots.

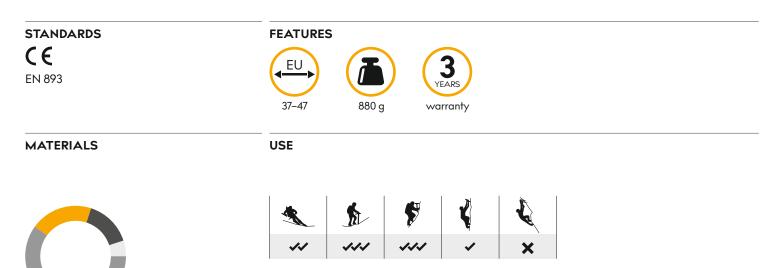

BOUNCER anti-snow plates included.

KEY FEATURES

- high durability
- toolfree size adjustment

60 % CrMo steel

COMPARISON

FAKIR III vs. FAKIR II

- modified shape for lower weight and improve fatigue strength performance
- 20 g lighter
- new length adjustment system (standard system)
- snow BOUNCERS made of softer plastics for better efficiency and lifetime, rivets used instead of screws

FAKIR II / tech
